## **MEAT DEALERS TO BACK UP HARTIGAN**

Agreement Signed by 218 to Mark Weight on Wrappers -Bakeshop Violations.

Two hundred and thirteen meat deal-Two hundred and thirteen meat dealers yesterday agreed to assist John J. Hartigan, Commissioner of Weights and Measures, in his fight on the packers who charge for the wrappers as well as the meats they contain. Meeting in the Commissioner's office, they signed an agreement to mark the weight on the wrappers in conformity with the State and city regulations. Mr. Hartigan gained another point in obtaining the promise of five packers' representatives to consider seriously the advisability of sending out meats unwrapped.

In fining a meat dealer a few weeks sgo Judge Beale of Yonkers said the people of New York city were being overcharged \$1,000,000 a year and the people of the State \$3,000,000 by paying meat prices for the wrapper on cured mass. The wrapper on a ham or side of bacon weighs ordinarily from six to eight ownces, while in the case of Southern sugar cured hams it often weighs a

nd. he Commissioner is interested in a tion being circulated by bakers asknettion being circulated by bakers ask-ing for a Federal investigation of food shortages and possibly an embargo on the exportation of foodstuffs to Europe. The bakers hope to interest the 30,000 guveyors of foodstuffs in this city, who in turn will seek signatures from their

"It is imperative that the National Depariment of Agriculture should issue a statement showing what we may expect in the way of foods and costs next spring," said Mr. Hartigan. "There is

some reason to believe that the prediction of \$10 a barrel for flour may be borne out. Of the 1,000,000,000 bushels or op of wheat only 220,000,000 bushels were available for home consumption, though the ordinary demand is for \$00,000,000 bushels."

1000,000 bushels."

Inspectors have visited 102 bakeshops in Brooklyn and examined more than 2,000 loaves of bread in the last few days. They reported forty-three violations of the State law requiring that bread be up to standard weight and eight violations of the ordinance requiring the indication of weight on wrappers. One baker was arrested for an alleged assault on an inspector.

BEAR CLAWS AUTHOR'S ARM.

Clarence New Gets Too Close Cage in Prospect Park.

One of the Russian bears in the Prospect Park soo had no appetite for the tidbits offered him at 7 o'clock yesterday morning by Clarence New, author and editor. He declined to eat from the author's hand, but he made an ungrateful effort to breakfast on Mr. New's arm. The bear's claw tore the man's arm. Keepers beat the animal off and Mr. New was removed to the Methodist Episcopal Hospital, where efforts are being made

Mr. New, who has been a foreign correspondent, a lieutenant of United States Naval Volunteers, editor of Truth, and manager of the New York and London Literary Press, is a fellow of the National Geographic Society. tional Geographic Society. His travels, which took him twice around the world, resulted once in shipwreck on the coast of Australia. His wife and son, a Harvard student, are in Vermont.

Suspected Slayer of Two Lynched. OLATRE, Kan., Sept. 21.—Bert Dudley, charged with the murder of Henry Muller, an aged German, and his wife, was taken from the Johnson county jail here to-day by a mob and hanged to a telephone pole.

PRISON HEADS TOLD

State Superintendent James M. Carter Threatens to Take "Decisive Action."

ALBANY, Sept. 21 .- James M. Carter Superintendent of State Prisons, sent warning to-day to all wardens that escapes of prisoners must cease or he will take "decisive action." He points out that since he took office in March thirty-five convicts have escaped, twenty-two of whom still are at large. Bixteen escaped from Auburn and ten from Sing Sing. Six of the convicts from Auburn are back in the prison and four of Sing Sing's.

"While the superintendent approves of the aims of the honor system and the purpose of the Mutual Welfare League," Mr. Carter's letter reads, "the number of recent escapes proves conclusively that greater restrictions must be placed on

There is to be no return to brutality or undue severity, he says, but he has "now come to a definite conclusion that either the new ideas are not workable or that lax methods are employed in their development." Unless wardens hereafter can give ample proof that it was beyond their power to prevent escapes, he "will be forced to issue stringent orders for the future conduct and management of the institutions."

George S. Weed has resigned as chief clerk of the State Prison Department. George W. Franklin of Troy, who has been prison industrial agent, succeeds him, and George W. Jones has been added to the force. There is to be no return to brutality or

added to the force.

One Winter Car-The Coupe

# "My Scientific Car"

A Statement by John W. Bate, the Efficiency Expert The First He Has Ever Signed

The latest Mitchell, in every detail, typifies my ideals of efficiency.

I have never said that before. Yet I have devoted 13 years to this car. I have made some 700 improvements. And this is my 17th model.

We have all kept silent on my objects until my work was done.

### Efficiency is This:

Efficiency means doing things in the best way possible.

In the factory it means economy. It means minute-saving at every point. It means right arrangement. It means trained men. It means machines to perform each operation in the quickest way.

We have that now. The Mitchell plant is the model of this industry.

We have worked out here a factory saving of at least 50 per cent. A car like the Mitchell, in most modern plants, would cost the maker at least one-fifth more than here.

#### A Lifetime Car

I consider that efficiency also means a car built to last a lifetime. A car's life is affected by use and abuse. But seven cars of my building have already averaged 175,000 miles each. That's over 30 years

RATSIDE—Bayside Automobile Co. PREEPORT—Prospers Garage & Sup-ply Co.

of ordinary service. One has already run 218,000 miles.

That is due to my policy of giving every part at least 50 per cent over-strength. To do that, and get lightness, I use much Chrome-Vanadium steel. I use more drop forgings, more steel stampings than any other maker, I believe. There are 440 such parts in the Mitchell. I use almost no castings.

#### **Took 55,000 Hours**

I have devoted to this Mitchell some 55,000 hours. For I work both night and day. I have worn out fifty cars in comparing one idea with another. Each part has been tested in every known way before I adopted a standard.

Now, by watching materials, by endless tests and inspections, we When I drive a car I want it built as I build it. I want it for safety's sake, for the sake of en-

durance and for economy. 1 know that able engineers look for a car of this kind, because so many buy the Mitchell. And I believe that all men, when they know the facts, will demand scientific cars.

Luxury Bodies

This year our artists have designed seven types of new-style luxury bodies. Before they alid so, I had them examine 257 new models, European and American. So not an attraction is missed-not a dainty touch, not a new idea.

There are two all-season models —the Touring Sedan and the Cabriolet. There are two winter care -the Limousine and Coupe. There are open care, and a top that detaches.

All the beauties and luxuries known to body-building are combined in these new models. They are exhibition cars.

#### 26 Extra Features

These new models contain 26 extra features -things that other cars omit. Our factory savings pay for all of them. Our luxury bodies contain a score of touches which you do not find else-

where. That is my idea of efficiency—to make the Mitchell, in every detail, typify the utmost in a car. I believe that every man who knows - and every woman will say that I have done so. JOHN W. BATE.
